2026

HO HO HO – RION IS BACK ON A FESTIVE PROMOTIONAL MISSION!

Straight from the snowy branding headquarters of the North Pole, I'm back to guide you through the most magical season of the year. Welcome to the Christmas Special 2026 – a curated collection of festive promotional ideas, carefully selected to bring together creativity, functionality, and a touch of holiday magic. Once again, I've travelled across the world of trends, gifts, and seasonal inspiration to gather products that help create unforgettable winter campaigns and meaningful brand experiences. Inside this catalogue, you'll discover ideas designed to make every seasonal moment shine brighter. From practical everyday essentials to charming festive giveaways, every product has been chosen to help spread joy, strengthen connections, and leave a lasting impression during the holiday season. Because Christmas gifting is more than just a tradition – it's an opportunity to create stories, spark emotions, and make people feel truly appreciated. And with a little North Pole magic, even the smallest gesture can become something memorable. So get ready for a season filled with sparkle, inspiration, and standout festive moments.

Warmest wishes,
RION – The Promo Reindeer

IDENTITY by PRINT

The first impression determines how a brand is remembered – and its identity is what sets it apart. Printing logos, slogans, or graphics is more than just applying colour – it's about creating an experience that builds a connection with the customer.

From the precision of screen printing to the vibrancy of UV printing to the elegance of laser engraving, each technique brings a brand to life in its own unique way. Thanks to these techniques, logos become stories, colours become emotions, and products become memorable touchpoints.

In a crowded market, it's not just about being seen – it's about being remembered. "Identity by print" sums it up: the right print adds meaning, texture, and depth that ordinary products simply can't match.

Whether bold or subtle, every print reflects your brand's character and mission. With our expertise in various printing techniques, we transform everyday items into powerful ambassadors of your brand.

PRINTING TECHNIQUES

☞ Pad Printing

This is an ideal technique for applying precise designs to small or irregular surfaces. Using a flexible silicone pad, ink is transferred directly onto the object, ensuring high durability and accuracy even on uneven surfaces. Applying this technique, we only use the Pantone Solid C colour palette for the best effect. This method is perfect for printing on materials like plastic, glass, metal, and wood.

☞ Screen Printing

This is an ideal technique for creating vibrant, long-lasting designs on large, flat surfaces. This method involves pushing ink through a specially prepared mesh screen, allowing precise application of each colour to the product. Applying this technique, we only use the Pantone Solid C colour palette for the best effect. It's perfect for multi-colour prints.

☞ Digital Transfer

This is an advanced technique that delivers high-quality, full-colour designs with exceptional detail and flexibility. It involves printing a digital image onto special transfer foil, which is then heat-pressed onto the fabric. Applying this technique, we exclusively use the CMYK colour palette to achieve the best effect. The result is a soft, photographic-quality print that is vibrant and durable.

☞ 360° Digital Printing

An advanced technique that applies full-colour designs around the entire circumference of cylindrical objects using UV-curable inks. Ideal for customising products like cups or bottles. Using this technique, we exclusively use the CMYK colour palette to achieve the best effect. This method delivers vivid, high-gloss colours that are both durable and resistant.

☞ Transfer Printing

An excellent technique for achieving high-quality screen prints on various materials. It involves transferring a pre-printed design from a special transfer foil to the desired item using a heat press. Applying this technique, we only use the Pantone Solid C colour palette for the best effect. The result is a sharp, long-lasting print that is perfect for larger production runs.

☞ Laser Engraving

A sophisticated technique that uses high-precision lasers to create personalised gifts or premium products with a high-quality finish. It's ideal for items like wood, metal, or glass. Even if it uses no colours, the contrast between the engraved design and the base material adds a refined touch.

☞ Digital Printing

A modern technique that delivers vivid, high-quality prints with exceptional durability. Using UV light to cure the ink, we create photorealistic images with vibrant colours on various materials. Using this technique, we exclusively use the CMYK colour palette to achieve the best effect. The process is efficient, allowing for rapid production.

☞ 360° Laser Engraving

A versatile technique that applies detailed, permanent designs around the entire surface of cylindrical or curved objects. It uses rotary attachments to achieve precise and elegant engravings on all sides of the product. Ideal for personalising items such as bottles, pens, and glasses.

☞ 360° Screen Printing

An innovative technique designed to utilise the surface area of cylindrical objects in full. This method provides great coverage on round surfaces by applying the print as the object rotates. Applying this technique, we only use the Pantone Solid C colour palette for the best effect. It delivers precise and wear-resistant results in intense colours.

☞ Reflective Transfer

A cutting-edge technique that applies a striking, light-reflecting design to various materials using a special foil and heat. It is perfect for adding an eye-catching element to items. The reflective effect is visible beneath any colour and enhances visibility in low-light conditions.
